PROFILE

Lara joined us in November 2024 and brings a wealth of experience and a passion for empowering children to reach their full potential through individualised care.

About Lara:

Lara is a dedicated and passionate Occupational Therapist with a strong foundation in both adult and paediatric care. She holds a Bachelor of Occupational Therapy and has gained diverse clinical experience across Australia and the UK. Lara's approach is centred on fostering independence and enhancing the quality of life for her clients, tailoring her therapy to meet the unique needs of each child.

Lara has significant experience in supporting children with Autism Spectrum Disorder, global developmental delay, fine and gross motor challenges, and sensory needs. She works closely with families to create effective, holistic strategies that support children's development both at home and in school settings.

Professional Development:

Lara is committed to ongoing professional growth, continually expanding her expertise in paediatric occupational therapy. Her training and experience have equipped her with a deep understanding of a wide range of neurodevelopmental and sensory challenges, which she integrates into her practice to provide the most effective care for her clients.

At Hopscotch, Lara's compassionate and thoughtful approach to therapy makes her an invaluable addition to our team. Her dedication to promoting independence and improving children's quality of life aligns perfectly with our mission to support children's development and help them thrive.
